

CENTURION FINANCIAL TRUST

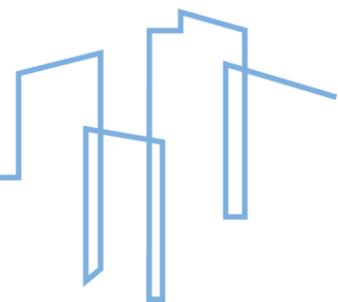

Q2 2019 Report | Management's Discussion and Analysis

For the quarter ended June 30, 2019

CENTURION
FINANCIAL TRUST

PROFILE

Centurion Financial Trust (“CFIT” or the “Trust”) is an income and capital growth-orientated investment trust that allows qualified investors to invest in a portfolio of private debt investments, including but not limited to mortgages, opportunistic real estate developments, and corporate debt.

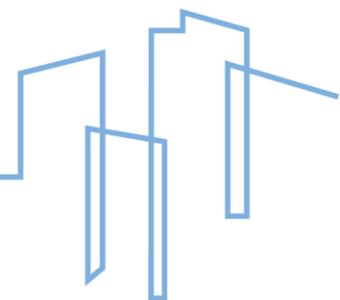

Q2 2019 HIGHLIGHTS

- Diversified portfolio
 - Corporate debt
 - Real estate
- Total assets \$56.3 million
- Net Investment Income was \$1.2 million
- Trailing 12-Month Class A Return of 7.51%
- Trailing 12-Month Class F Return of 8.56%

OBJECTIVES

- To provide investors with stable cash distributions, payable monthly, with the opportunity for long-term growth and a focus on the preservation of capital
- To offer a diversified portfolio of income-producing and growth-orientated alternative credit investments
- To maximize unit value through the active management of the portfolio

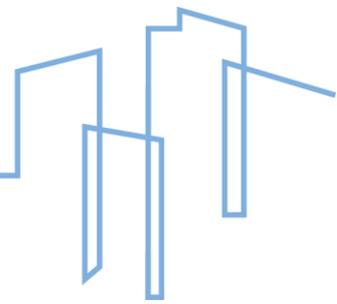

FINANCIAL HIGHLIGHTS

PORTFOLIO PERFORMANCE

As at	June 30, 2019		December 31, 2018			
Total Assets	\$56,299,654		\$48,231,627			
Corporate Debt Investments	\$19,279,554		\$11,205,408			
Real Estate Investments	\$34,773,985		\$32,017,472			
Convertible Debentures and Warrants	\$1,365,027		\$2,789,325			
	Trailing 12-Months		Three Months Ending		Six Months Ending	
	2019	2018	2019	2018	2019	2018
Net Investment Income	\$4,696,130	\$4,296,834	\$1,188,012	\$1,314,325	\$2,544,110	\$3,072,972
Net Income and Comprehensive Income per Unit	\$0.73	\$1.24	\$0.07	\$0.26	\$0.30	\$0.71
FFO per Unit	\$0.83	\$1.28	\$0.16	\$0.26	\$0.40	\$0.72

	Trailing 12-Month Returns		June 30, 2019		December 31, 2018	
Class A	7.51%		9.81%			
Class F	8.56%		10.88%			
Closing Price of Units	\$10.377		\$10.357			

LETTER FROM THE PRESIDENT

Now in its third year of operations, the Trust has continued to perform well and delivered a trailing twelve-month return of 7.51% on the Class A units and 8.56% on the Class F Units. For the six months ended June 30, 2019, assets increased 16.7%. Net investment income decreased from \$3.1 million in the prior year to \$2.5 million.

The Trust's otherwise good results were hampered by the need to take a non-cash provision on interest earnings and a fair value write-down on some warrant positions to take a conservative view of one file in restructuring in the corporate portfolio.

The mortgage portfolio, via the Trust's investment in CREOT, continues to perform very well with only one file totaling about 1% of the real estate portfolio in default that has not been substantially resolved or liquidated as of the date of this report. This is well below the default rate we would normally expect for its niche in the industry.

Deal flow was robust, although most opportunities did not meet our criteria for approval. Management believes that as the economy slows after its record long expansion, the opportunity set will increase further as banks tend to pull back and direct attention to their best clients, putting more borrowers in need of the solutions that the Trust is focused on.

Leveraging off our existing network, the Trust continued to grow with \$9.0 million in new unitholder capital during the first six months of the year and it is now approved on 21 platforms.

GREG ROMUNDT
President, CEO, and Trustee

Forward-Looking Statements

CAUTION REGARDING FORWARD-LOOKING STATEMENTS

The Management’s Discussion and Analysis (“MD&A”) of Centurion Financial Trust (“Centurion” or “CFIT” or the “Trust”) contains “forward-looking statements” within the meaning of applicable securities legislation. This document should be read in conjunction with material contained in the Trust’s unaudited condensed consolidated interim financial statements for the quarter ended June 30, 2019 along with CFIT documents available on the Trust’s website. Forward-looking statements appear in this MD&A under the heading “Outlook” and generally include, but are not limited to, statements with respect to management’s beliefs, plans, estimates and intentions, and similar statements concerning anticipated future events, results circumstances, performance, or expectations, including but not limited to financial performance and equity or debt offerings, new markets for growth, financial position, and proposed acquisitions. Generally, these forward-looking statements can be identified by the use of forward-looking terminology such as “plans”, “expects” or “does not expect”, “is expected”, “budget”, “scheduled”, “estimates”, “forecasts”, “intends”, “anticipates” or “does not anticipate”, “believes”, or variations of such words and phrases or statements that certain actions, events or results “may”, “could”, “would”, “might” or “will be taken”, “occur”, or “be achieved”.

Forward-looking statements are subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of CFIT to be materially different from those expressed or implied by such forward-looking statements, including but not limited to: the risks related to the market for CFIT trust Units, the general risks associated with real property ownership and acquisition, that future accretive acquisition opportunities will be identified and/or completed by CFIT, risk management, liquidity, debt financing, credit risk, competition, general uninsured losses, interest rate fluctuations, environmental matters, restrictions on redemptions of outstanding CFIT’s trust Units, lack of availability of growth opportunities, diversification, potential unitholders’ liability, potential conflicts of interest, the availability of sufficient cash flow, fluctuations in cash

distributions, the unit price of CFIT’s trust Units, the failure to obtain additional financing, dilution, reliance on key personnel, changes in legislation, failure to obtain or maintain mutual fund trust status and delays in obtaining governmental approvals or financing, as well as those additional factors discussed in Appendix A “Risks and Uncertainties” and in other sections of the MD&A.

In addition, certain material assumptions are applied by the Trust in making forward-looking statements including, without limitation, factors and assumptions regarding;

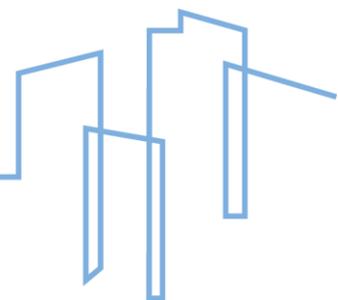

- Overall national economic activity
- Regional economic factors, such as employment rates
- Inflationary/deflationary factors
- Long, medium, and short-term interest rates
- Legislated requirements
- Development risks
- Mortgage extensions and mortgage defaults

Although the forward-looking information contained herein is based upon what Management believes are reasonable assumptions, there can be no assurance that actual results will be consistent with these forward-looking statements. CFIT has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements; however, there may be other factors that cause results not to be as anticipated, estimated, or intended.

There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. CFIT does not intend to update any forward-looking statements that are incorporated by reference herein, except in accordance with applicable securities laws.

Certain statements included herein may be considered “financial outlook” for purposes of applicable securities laws, and such financial outlook may not be appropriate for purposes other than this MD&A.

DECLARATION OF TRUST

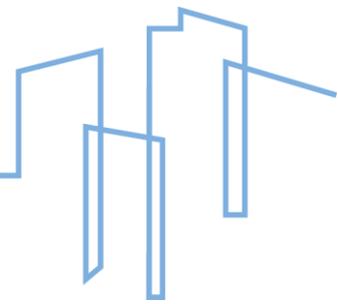

The policies of the Trust are outlined in the Declaration of Trust (the “DOT”) dated January 16, 2017 or as restated and amended from time to time. The DOT can be found at:

<https://www.centurion.ca/investment-solutions/centurion-financial-trust>

The Declaration of Trust contains investment guidelines and operating policies. The investment guidelines include, among other things, criteria with respect to the types of investments that the Trust can acquire and certain other parameters regarding the Trust’s investment activities. The operating policies address, among other things, the maximum level of the Trust’s debt and the requirements for investment analysis, security, appraisals, insurance coverage, environmental audits and due diligence. The investment guidelines and certain operating policies may only be changed upon the approval of a two-thirds majority of the votes cast by Unitholders at a meeting called for such purpose. The remaining operating policies may be changed upon the approval of a majority of the votes cast by Unitholders at a meeting called for such purpose.

The investment guidelines and operating policies set out in the DOT.

ACCOUNTING POLICIES

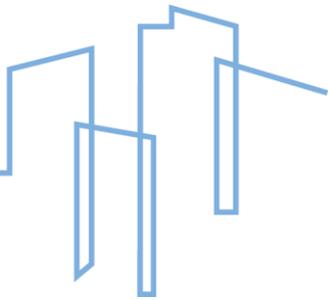

The Trust's significant accounting policies are described in Note 3 of the unaudited condensed consolidated interim financial statements (See Appendix B) for the quarter ended June 30, 2019. The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") applicable to the preparation of consolidated financial statements.

In applying these policies, in certain cases it is necessary to use estimates, which Management determines using information available to the Trust at the time.

Management reviews key estimates on a quarterly basis to determine their appropriateness and any change to these estimates is applied prospectively in compliance with IFRS. Significant estimates are made with respect to the fair values of investment properties and the fair value of financial instruments.

NON-IFRS MEASURES

The Trust prepares unaudited condensed consolidated interim financial statements and audited consolidated financial statements in accordance with IFRS. In this MD&A, as a complement to the financial results provided in accordance with IFRS, the Trust also discloses and discusses certain financial measures not recognized by IFRS including Funds from Operations (“FFO”), and Normalized Funds from Operations (“NFFO”).

These metrics (or, in each case, substantially similar terms) are measures used by Canadian real estate investment trusts as indicators of financial performance; however, they do not have standardized meanings prescribed by and these measures may differ from similar computations as reported by other trusts and, accordingly, may not be comparable to similarly termed measures reported by other such issuers.

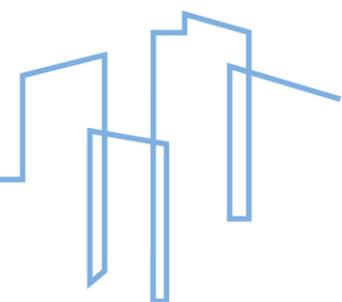

Funds from Operations (“FFO”) is a financial measure used to define their operating performance to provide an idea of the Trust’s cash performance, which is a better indicator of a Trust’s performance than earnings which includes large non-cash items. Management does not look at FFO to be a very useful indicator of stabilized cash flow or earnings but calculates and presents FFO as an input into the calculation of the measures such as NFFO.

Normalized Funds from Operations (“NFFO”) is a financial measure that adjusts Funds from Operations for non-recurring items. Some of these items Management considers to be capital in nature but for accounting purposes are written off portfolio stabilization costs that are not expected to be ongoing adjustments for the difference between underwritten Internal Rates of Return on participating mortgage type investments and minimum coupon rates on those investments to show the impact of timing differences on earnings related to these investments, leakage costs on excess capital (for undeployed capital) that has dragged on current period earning but that is non-recurring and new recurring measures such as internalization of the asset and property management teams and their influence on earnings capacity. Management looks at NFFO as a better measure of the Trust’s current cash generating capacity than FFO as it takes a stabilized view of the portfolio and adjusts for items that are not expected to influence earnings capacity over the medium to long term. It excludes identified opportunities and costs that Management has identified and believes may be realized over time.

Readers are cautioned that these metrics and calculations are not alternatives to measures under IFRS and should not, on their own, be construed as indicators of the Trust’s performance or cash flows, measures of liquidity or as measures of actual return on Units of the Trust. These non IFRS measures, as presented, should only be used in conjunction with the consolidated financial statements of the Trust. In addition, these measures may be calculated differently by other similar organizations and may not be comparable.

The Trust has five classes of units, The Class “A” Units, the Class “F” Units, the Class “I” Units, the Class “M” Units and the Class “R” Units. Under IFRS, the Trust has no instrument qualifying for equity classification on its Consolidated Statement of Financial Position and as such, all units are classified as financial liabilities. The classification of all units as financial liabilities with presentation as net assets attributable to Unitholders does not alter the underlying economic interest of the Unitholders in the net assets and net operating results attributable to Unitholders.

Q2 2019 OPERATING RESULTS

The quarter saw significant advancement of our pipeline of Qualified Prospects through to later stages. With extensive due diligence now substantially completed, we look to finalize and complete two to three new investments in Q3 2019.

From a market differentiation point of view, we remain committed to an approach that involves an extensive review of investment opportunities with the intention of building and fostering collaborative business relationships with investee companies.

CORPORATE DEBT PROSPECTS REVIEWED

Total Prospects Reviewed	35
Declined - Non-Qualified Prospects	<u>(25)</u>
Subtotal - All Qualified Prospects	10
Declined/Lost Qualified Prospects	<u>(3)</u>
Completed and Pending Investments	7

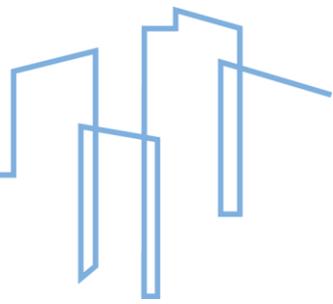

Of the three Declined/Lost Qualified Prospects, we discontinued our interest, in a majority of these situations, either due to significant price competition and/or our rigorous due diligence requirements were not being completely satisfied. We saw a number of proprietary referrals as a source of deals and we will continue to develop these relationships.

In relation to Real Estate Investments, the Trust, through its holdings in REOT, invested in a range of mortgage investments including, but not limited to, Construction Loans for Purpose-Built Rental Apartments and Student Housing Buildings, Development and Pre-Construction Loans, and other growth-oriented real estate investment opportunities. These investments are considered well-secured and offer a return consistent with the Trust's targeted return for investors.

TOTAL RETURNS

Growth of \$100,000 Invested

APPENDIX A

Risks and Uncertainties

There are certain risk factors inherent in an investment in the Units and in the activities of the Trust, including the following, which Subscribers should carefully consider before subscribing for the Units. Although investments made by the Trust will be carefully chosen by the Asset Manager and approved by the Investment Committee or the Trustees, there is no representation made by the Trustees or the Asset Manager that such investments will have a guaranteed return to Unitholders or that losses will not be suffered by the Trust from such investments. This Offering is not suitable for investors who cannot afford to assume significant risks in connection with their investments.

SPECULATIVE INVESTMENT

An investment in the Trust may be deemed speculative and is not intended as a complete investment program. There is no assurance that distributions will be paid. A subscription for units should be considered only by persons financially able to maintain their investment and who can bear the risk of loss associated with an investment in the Trust. Investors should review closely the investment objective, strategies and restrictions to be utilized by the Trust as outlined herein to familiarize themselves with the risks associated with an investment in the Trust.

CRITICAL ESTIMATES, ASSUMPTIONS, AND JUDGMENTS

The preparation of financial statements as per IFRS requires the Trust to make judgments, assumptions and estimates that affect the reported amounts in the consolidated financial statements. Actual results could differ from these estimates. Financial statement carrying values, in addition to other factors serve as the basis for the calculation of the Fair Market Value of Units. For example, the Trust takes into account the anticipated increase in equity investments when calculating their carry value, a practice which involves numerous assumptions and uncertainty. If such carrying values should prove to be incorrect, the Fair Market Value of the Units could be different. To the extent that the carrying values or critical estimates, assumptions and judgments are inaccurate, and given that investment portfolio values are calculated quarterly on a lagging basis, the Posted Price per Unit in any given month may be understated or overstated as the case may be. In light of the foregoing, there is a risk that a Unitholder who redeems all or part of its Units will be paid an

amount less than it would otherwise be paid if the critical estimates, assumptions and judgments were different, or if the calculation of property values was not calculated on a quarterly basis and thus potentially lagging the market. Similarly, there is a risk that such Unitholder might, in effect, be overpaid if the actual Fair Market Value is lower than the calculated Fair Market Value. In addition, there is a risk that an investment in the Trust by a new Unitholder (or an additional investment by an existing Unitholder) could dilute the value of such investments for the other Unitholders if the Posted Price of the Units is higher than the actual Fair Market Value of the Units. Further, there is a risk that a new Unitholder (or an existing Unitholder then makes an additional investment) could pay more than it might otherwise have paid if the actual Fair Market Value of the Units is lower than the Posted Price. The Trust does not intend to adjust the Fair Market Value of the Trust retroactively.

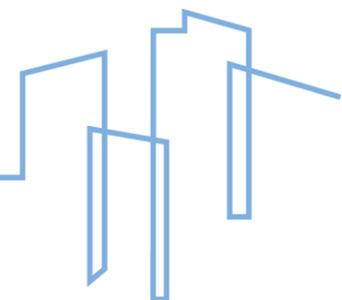

As set forth in the definitions of “Fair Market Value”, the value of the Units is determined by the Trustees, at their sole discretion, using reasonable methods of determining fair market value. Fair Market Value of the Units may or may not be equal to the net asset value of the Units. The description of the methodology of investment portfolio valuations and the calculation of Fair Market Value and Posted Prices of Units reflects the methodology used by the Trustees as at the date hereof in calculating Fair Market Value. The Trustees may, in their discretion, adopt alternative methodologies to calculate Investment values and Fair Market Value from time to time, such as obtaining independent appraisals, which the Trust does not currently receive, without notice to, or approval by, Unitholders. Such alternative methodologies may present the same or additional risks.

RISKS RELATED TO DEFAULTS OF LOAN EXTENSIONS

The Trust may invest in speculative loans that may default. The Asset Manager may from time to time deem it appropriate to extend or renew the term of an Investment loan past its maturity, or to accrue the interest on an Investment, in order to provide the borrower with increased repayment flexibility. The Asset Manager generally will do so if it believes that there is a relatively low risk to the Trust of not being repaid the full principal and interest owing on the loan. In these circumstances, however, the Trust is subject to the risk that the principal and/or accrued interest of such loan

APPENDIX A

Risks and Uncertainties

may not be repaid in a timely manner or at all, which could impact the cash flows of the Trust during and after the period in which it is granting this accommodation. Further, in the event that the valuation of the asset has fluctuated substantially due to market conditions, there is a risk that the Trust may not recover any of the principal and interest owed to it in respect of such loan.

When an Investment loan is extended past its maturity, the Investment can either be held over on a month-to-month basis or renewed for an additional term at the time of its maturity. Notwithstanding any such extension or renewal, if the borrower subsequently defaults under any terms of the loan, the Investment Advisor has the ability to exercise its enforcement remedies in respect of the extended or renewed loan. Exercising enforcement remedies is a process that requires a significant amount of time to complete, which could adversely impact the cash flows of the Trust during the period of enforcement. In addition, as a result of potential declines in security values and other factors, there is no assurance that the Trust will be able to recover all or substantially all of the outstanding principal and interest owed to it in respect of such loans by the Investment Advisor's exercise of enforcement remedies for the benefit of the Trust. Should the Trust be unable to recover any portion of the principal and interest owed to it in respect of such loans, the assets of the Trust would be reduced, and the returns, financial condition and results of operations of the Trust could be adversely impacted.

DEBT FINANCING

If the Trust enters into an operating credit facility, the Trust will be subject to the risks associated with debt financing, including the risk that the Trust may be unable to make interest or principal payments or meet loan covenants, the risk that defaults under a loan could result in cross defaults or other lender rights or remedies under other loans, and the risk that existing indebtedness may not be able to be refinanced or that the terms of such refinancing may not be as favourable as the terms of existing indebtedness. A portion of any such operating credit facility may be at floating interest rates, and accordingly, changes in short-term borrowing could affect the Trust's costs of borrowing. The total indebtedness of the Trust, including amounts drawn under an acquisition facility, is limited to no more than 75% of the Gross Book Value, provided that indebtedness shall exclude any

obligations of the Trust under or arising out of mortgage transactions (including any obligations to purchase mortgage or Investments on demand).

RISKS RELATED TO PORTFOLIO COMPANIES

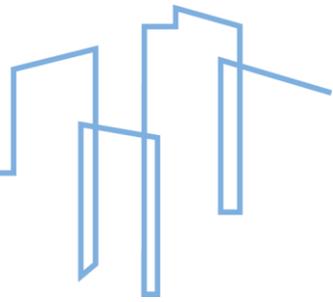

The Trust will be dependent on the operations, assets and financial health of its Portfolio of companies in which it has made Investments ("Portfolio Companies"). The Trust's ability to pay distributions, to satisfy its debt service obligations, if any, and to pay its operating expenses is dependent on the payments received from its Portfolio Companies. Accordingly, to the extent that the financial performance of a Portfolio Company declines, cash payments to the Trust may decline. The failure of any material Portfolio Company to fulfill its payment obligations to Trust could materially adversely affect the Trust's financial condition and cash flows. There is a risk that some liabilities or other matters that are not identified by the Trust could have a material adverse effect on a Portfolio Company and the Trust.

There is generally no publicly available information, including audited or other financial information about the Trust's Portfolio Companies and the boards of directors and management of these companies are not subject to the same governance and disclosure requirements applicable to Canadian public companies. Therefore, the Trust relies on its management, the Asset Manager and other third-party service providers to investigate Portfolio Companies. There can be no assurance that the Trust's due diligence efforts or ongoing monitoring procedures will uncover all material information about privately held Portfolio Companies necessary to make fully informed decisions. In addition, the Trust's due diligence and monitoring procedures will not necessarily result or ensure that an investment will be successful.

Numerous factors may affect the ability of a Portfolio Company to service its payment obligations to the Trust, including, without limitation: the failure to meet its business plan; regulatory or other changes affecting its industry; integration issues with respect to acquisitions or new business lines; a downturn in its industry; negative general economic conditions; supply chain disruptions; disputes, or changes in arrangements, with customers or suppliers; and working capital and/or cash flow management issues. Deterioration in

APPENDIX A

Risks and Uncertainties

a Portfolio Company's financial condition and prospects may be accompanied by a material reduction in the payments received by the Trust.

Certain of the Investments that may be included in the Portfolio from time to time may be unsecured, which will increase the risk of loss in case of default or insolvency of the applicable Portfolio Companies.

INVESTMENTS IN LESS ESTABLISHED COMPANIES

The Trust may make Investments in less established Portfolio Companies. Investments in such companies may involve greater risks than are generally associated with investment in more established companies. The securities of such companies, if publicly listed, may be subject to more abrupt and erratic market price movements than larger, more established companies, since trading volumes for their securities are generally quite low. Less established companies tend to have smaller capitalizations and fewer resources and, therefore, are often more vulnerable to financial failure and have shorter operating histories on which to judge future performance.

AVAILABILITY OF INVESTMENTS AND COMPETITION

The success of the Trust will depend on the availability of appropriate Investment opportunities and the ability of the Trust to identify, underwrite, close and realize repayment from those Investments. There can be no assurance that there will be a sufficient number of suitable Investment opportunities to enable the Trust to satisfy the Trust's investment short or long-term objectives. The identification of attractive Investment opportunities is difficult and involves a high degree of uncertainty. The Trust will compete with individuals, corporations, trusts and financial institutions (both Canadian and foreign) for Investments. A number of these investors may have greater financial resources than the Trust or operate without the investment or operating guidelines of the Trust, thus having greater flexibility when investing. An increase in the availability of funds for Investments may increase the competition for Investments, thereby decreasing the yields that are currently available and increasing the risk/reward ratio. Additionally, new competitors may enter the Canadian alternative financing

market or current market participants may significantly increase their activities in this area. There is no guarantee that the Trust will be able to compete effectively with such competitors in the origination of new Investments.

ILLIQUID AND LONG-TERM INVESTMENTS

Investments made by the Fund may take several years from the date of the initial investment to reach a state of maturity and realization of value can be achieved. It is anticipated that there will generally not be a public market for all or a substantial portion of the Investments held by the Trust at the time of their acquisition.

MONITORING, ENFORCEMENT, AND LIQUIDATION PROCEDURES

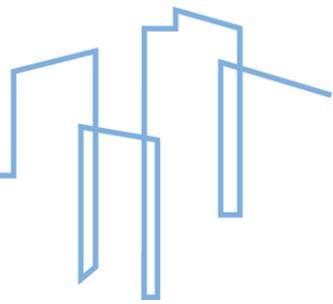

From time to time, the Trust will be required to take enforcement proceedings with respect to non-performing Investments and may be required to liquidate a Portfolio Company's assets where such Investment was secured. Enforcement and liquidation proceedings can be time consuming and, if a sufficient number of Investments require enforcement, management's attention may be diverted from the day-to-day operations or from pursuing its growth strategy and the Trust may incur significant expenses that cannot be recovered.

In connection with managing and monitoring the Portfolio, the Trust has a "watch list" system whereby a Portfolio Company with a deteriorating financial condition, or that otherwise meets certain criteria, is closely monitored by the Trust with a view to the Trust taking a proactive approach to ensuring the Portfolio Company's compliance with the terms and obligations of its Investment and managing the risk of default. There can be no assurance that the Trust's watch list procedures will successfully identify Portfolio Companies at risk of defaulting on, or failing to comply with, their obligations, or that enhanced scrutiny by the Trust of borrowers on the watch list will be sufficient to prevent a Portfolio Company's default on its obligations.

At any given time, Investments in Portfolio Companies, including but not necessarily limited to those placed on a watch list by management, may represent a risk of a loss to the Trust. Such situations could arise where the value of the collateral, if any, of a Portfolio Company falls below the outstanding Investment balance, or where a Portfolio

APPENDIX A

Risks and Uncertainties

Company has otherwise failed to comply with its obligations. In appropriate cases, management will take a specific loss provision to reflect the potential loss on the Investment that could be expected through a workout situation or a liquidation scenario. Portfolio Companies on the watch list or Investments subject to a loss provision may be, and often are, still performing for the Trust with respect to their contractual monthly interest payments.

Each Portfolio Company is expected to provide certain representations and warranties and covenants to the Trust regarding its business and certain other matters. Following a transaction with the Trust, the Portfolio Company may distribute all or a substantial portion of the proceeds that it receives from the Trust to its security holders or owners. In the event that the Trust suffers any loss as a result of a breach of the representations and warranties or non-compliance with any other term of an agreement with a Portfolio Company, the Trust may not be able to recover the amount of our entire loss from the Portfolio Company. The Portfolio Company may not have sufficient assets to satisfy the Trust's loss. In addition, the Trust's rights and remedies in the event of a default are generally subordinated to a Portfolio Company's senior lenders, if any, which can limit the Trust's ability to recover any losses from a Portfolio Company.

INVESTMENT WAREHOUSE ARRANGEMENTS

The Trust may own certain rights to Warehoused Investments pursuant to the Warehouse Agreements. The Warehouse Agreements provide the Trust with a facility to fund the purchase of additional Investments. For such time as the applicable Warehouse Lender is the beneficial owner of the Warehoused Investments, the Trust has no rights to such Warehoused Investments, but is fully exposed to the related downside risks by virtue of the applicable Warehouse Lender's unrestricted option to immediately sell any Warehoused Investments that have been noted in default or that have otherwise experienced a negative credit or other event, as set out in their respective Warehouse Agreement. There is no guarantee that the applicable Warehouse Lender will accept the warehousing of any particular Investment and the applicable Warehouse Lender may terminate their respective Warehouse Agreement on six (6) months' prior written notice.

POTENTIAL CONFLICTS OF INTEREST

The Trust may be subject to various conflicts of interest because the Trustees and senior officers of the Trust, senior officers of the Asset Manager, and the Investment Advisor are each engaged in a wide range of real estate, mortgage investments, lending and other business activities. The Trust may become involved in transactions which conflict with the interests of one or more of the foregoing individuals and/or entities.

The Trustees may, from time to time, deal with persons, firms, institutions or corporations with whom the Trust may be dealing, or that may be seeking Investments similar to those desired by the Trust. The interests of these persons could conflict with those of the Trust. In addition, from time to time, these persons may be competing with the Trust for available investment opportunities.

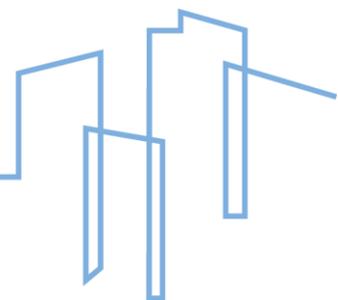

The Asset Manager, the Investment Advisor and the Mortgage Servicer (collectively, the "Service Providers") are not owned by the Trust but are related by common management and personnel to the Trust. This could create conflicts of interest between any of the Service Providers and the Trust.

The Service Providers' services are not exclusive to the Trust, as each Service Provider provides services to several other clients. In particular, the Asset Manager also provides similar services to Centurion Apartment REIT and Centurion REOT. Centurion Apartment REIT, Centurion REOT and the Trust each operate independently from one another and have separate boards of trustees, with Mr. Gregory Romundt serving as a Trustee for Centurion Apartment REIT, Centurion REOT and the Trust and Mr. Stephen Stewart serving as Trustee for Centurion REOT and the Trust. Although Mr. Kenneth Miller serves as a trustee of both Centurion REOT and the Trust, he is otherwise independent of the Asset Manager and its affiliates.

Additionally, the Warehouse Agreements between the Trust and Warehouse Lenders and the arrangements thereunder may give rise to certain conflicts of interest, including with respect to (i) any Property Purchase Options or Property Offer Options (and the valuation and transfer thereof), (ii) the valuation and transfer of Warehoused Investments between the Trust and the applicable Warehouse Lender, and (iii) the

APPENDIX A

Risks and Uncertainties

valuation and transfer of Warehoused Investments between the Trust and the applicable Warehouse Lender, and (iii) the allocation of risk as between the Trust and the applicable Warehouse Lender. The Asset Manager will follow procedures established by the Board of Trustees that are designed to ensure an appropriate allocation of risk under the Warehouse Agreements and related arrangements.

The Trust is a connected issuer, and may be considered to be a related issuer, of Centurion Asset Management Inc., its asset manager and an exempt market dealer and investment fund manager in certain jurisdictions, in connection with the distribution of the Units hereunder, which may result in potential conflicts of interest. The Trust is a connected issuer of the Asset Manager due to the factors described in the Offering Memorandum under “Item 2: Business of Centurion Financial Trust - 2.1 Structure - Relationship between the Trust, the Asset Manager and Affiliates of the Asset Manager”, and in particular, as a result of the fact that the President of each of the Trust and the Asset Manager, namely Mr. Gregory Romundt, are the same and Mr. Gregory Romundt and his family beneficially own all of the shares of the Asset Manager and its affiliates, including the Investment Advisor and the Loan Servicer. The Trust has retained the Asset Manager to provide asset management services to it pursuant to the Asset Management Agreement as described under “Item 2: Business of Centurion Financial Trust - 2.1 Structure - Asset Manager’s Duties” and the Trust has agreed to pay the Asset Manager the fees described herein. The Trust may be considered to be a related issuer of the Asset Manager by virtue of the Asset Manager’s right, during the term of the Asset Management Agreement, to appoint a prescribed number of nominees to the board of trustees of the Trust as more particularly described under “Item 2: Business of Centurion Financial Trust - 2.1 Structure - Trustees”. The prescribed number of nominees that the Asset Manager is entitled to appoint varies depending on the size of the board of trustees, but the prescribed number exceeds 20% of the number of trustees. In addition, the Asset Manager is the asset manager of, and adviser to, Centurion Apartment REIT, which owns Class R Units of the Trust as set out herein. See “Item 2: Business of Centurion Financial Trust - 2.1 Structure - Relationship between the Trust, the Asset Manager and Affiliates of the Asset Manager”.

ALLOCATION OF INVESTMENT OPPORTUNITIES

There may be instances in which the Trust, Centurion Apartment REIT and Centurion REOT all have an interest in the same investment opportunity. For example, Centurion Apartment REIT may invest in long-term real estate properties and the Trust and Centurion REOT may, from time to time, invest in Mortgage Assets. In the event that the Trust, Centurion Apartment REIT and Centurion REOT are all interested in pursuing the same investment opportunity, the Asset Manager will seek to allocate investment opportunities on a basis which it determines to be fair and reasonable. However, there is no requirement that the Asset Manager allocate investment opportunities on a pro-rata basis among the Trust, Centurion Apartment REIT and Centurion REOT. Additionally, there may be situations where an investment opportunity is allocated to Centurion Apartment REIT or Centurion REOT despite the Trust having an interest in such an investment opportunity.

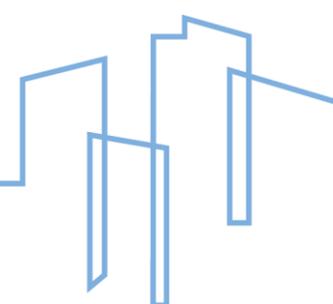

AVAILABILITY OF CASH FOR DISTRIBUTIONS

There can be no assurance that the Trust will be able to achieve its distribution targets or that the Trust will make any distributions in any particular month. Distributable income is calculated before deducting items such as principal repayments and capital expenditures and, accordingly, may exceed actual cash available to the Trust from time to time. The Trust may be required to use part of its debt capacity or raise additional equity in order to accommodate such items, and there can be no assurance that funds from such sources will be available on favourable terms or at all. In such circumstances, distributions may be reduced or suspended. Accordingly, cash distributions are not guaranteed and cannot be assured. Further, Distributable Income can exceed net income and have the result of an erosion of Adjusted Unitholder’s Equity.

Distributable Income is calculated in accordance with the Declaration of Trust. Distributable Income is not a measure recognized under Canadian generally accepted accounting principles and does not have a standardized meaning prescribed by IFRS. Distributable Income is presented herein because management of the Trust believes this non-IFRS measure is a relevant measure of the ability of the Trust to earn and distribute cash returns to Unitholders.

APPENDIX A

Risks and Uncertainties

Distributable Income as computed by the Trust may differ from similar computations as reported by other similar organizations and, accordingly, may not be comparable to distributable income as reported by such organizations. Distributable income is calculated by reference to the net income of the Trust on a consolidated basis, as determined in accordance with IFRS, subject to certain adjustments as set out in the constating documents of the Trust.

POTENTIAL INABILITY TO FUND INVESTMENTS

The Trust is dependent on its ability to secure funding for its Investments and to fund its commitments. The Trust may commit to making future Investments in anticipation of warehousing such Investments under the Warehouse Agreements, repayment of principal outstanding and/or the payment of interest under existing investments and/or in reliance on its credit facilities, if any. In the event that such investments are not accepted under the Warehouse Agreement, repayments of principal or payments of interest are not made, or where credit facilities aren't available, the Trust may be unable to advance some or all of the funds required to be advanced pursuant to the terms of its commitments and may be required to obtain interim financing and to fund such commitments or face liability in connection with its failure to make such advances.

RESTRICTIONS ON POTENTIAL GROWTH AND RELIANCE ON CREDIT FACILITIES

The payout by the Trust of a substantial part of its operating cash flow could adversely affect the Trust's ability to grow unless it can obtain additional financing. Such financing may not be available, or renewable, on attractive terms or at all. In addition, if current credit facilities were to be cancelled or could not be renewed at maturity on similar terms, the Trust could be materially and adversely affected.

LIQUIDITY OF UNITS AND REDEMPTION RISK

The Units are not listed on an exchange. There is currently no secondary market through which the Units may be sold, there can be no assurance that any such market will develop and the Trust has no current plans to develop such a market or to list the Units on an exchange. Accordingly, it is expected that the sole method of liquidation of an investment in Units will be by way of redemption of the Units. Aggregate cash

redemptions are limited to \$50,000 per month unless approved by the Board of Trustees or in respect of Class R Units held by Centurion Apartment REIT and/or Centurion REOT. Accordingly, in the event that the Trust experiences a large number of redemptions, the Trust may not be able to satisfy all of the redemption requests in cash or in specie. Depending upon the Purchase Option selected and the amount of time the Units have been held, there may be a Deferred Sales Charge or Short-Term Trading Fee associated with an early redemption.

BROAD INVESTMENT MANDATE

The Trust does not have any specific limits on making investments in any one industry or geographical jurisdiction. The Management may alter the target Investments of the Trust from time to time without the prior approval by Unitholders if the Management determines it advantageous for the Trust, provided such actions are consistent with the Investment Guidelines.

TAX-RELATED RISKS

There can be no assurance that income tax laws and the treatment of mutual fund trusts will not be changed in a manner which adversely affects the Trust or the Unitholders.

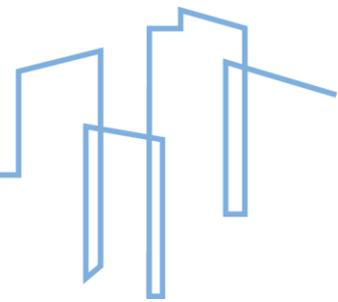

If the Trust fails or ceases to qualify as a mutual fund trust for the purposes of the Tax Act, the tax consequences described under "Item 6: Tax Consequences and RRSP Eligibility For Investment - Canadian Federal Income Tax Considerations" and "Item 6: Tax Consequences and RRSP Eligibility For Investment - Eligibility for Investment" would in some respects be materially and adversely different. In addition, Unitholders may become subject to provincial taxes, such as Ontario Land Transfer Tax, in respect of their Units.

If investments in the Trust become publicly listed or traded for the purpose of the Tax Act, there can be no assurances that the Trust will not be subject to the SIFT Rules at that time. If the Trust were a SIFT Trust and therefore subject to SIFT Rules, to the extent that it earns "non-portfolio earnings," as defined in the Tax Act, its Fair Market Value could be reduced and the tax consequences to the Trust and its Unitholders could be materially different.

The Tax Act contains loss restriction rules that could result in unintended tax consequences for unitholders, including an

APPENDIX A

Risks and Uncertainties

unscheduled allocation of income or capital gains that must be included in a unitholder's income for Canadian income tax purposes. If the Trust experiences a "loss restriction event", it will: (i) be deemed to have a year-end for Canadian tax purposes whether or not the Trust has losses (which would trigger an allocation of the Trust's net income and net realized capital gains to unitholders to ensure that the Trust itself is not subject to tax on such amounts); and (ii) the Trust will become subject to the Canadian loss restriction rules that generally apply to corporations, including a deemed realization of any unrealized capital losses and disallowance of its ability to carry forward capital losses. Generally, the Trust will be subject to a loss restriction event if a person becomes a "majority-interest beneficiary", or a group of persons becomes a "majority-interest group of beneficiaries", of the Trust, as those terms are defined in the affiliated persons rules contained in the Tax Act, with certain modifications. Generally, a majority-interest beneficiary of a Trust is a beneficiary in the income or capital, as the case may be, of the Trust who, together with the beneficial interests of persons and partnerships with whom the beneficiary is affiliated, has a fair market value that is greater than 50% of the fair market value of all the interests in the income or capital, as the case may be, of the Trust. A loss restriction event could occur because a particular unitholder or an affiliate acquires Units of the Trust or because another person redeems Units of the Trust.

Pursuant to paragraph 251.2(3)(f) of the Tax Act, the Trust will not be subject to the loss restriction event rules where a person becomes a "majority-interest beneficiary" or group of persons becomes a "majority-interest group of beneficiaries" from the acquisition or disposition of units of the Trust at any time if (i) the Trust is an "investment fund" immediately before that time, and (ii) the acquisition or disposition, as the case may be, is not part of a series of transactions or events that includes the Trust ceasing to be an "investment fund". An "investment fund" generally includes a trust that is (i) a "mutual fund trust" throughout the period that begins the later of March 21, 2013 and the end of the calendar in which the trust is created, and (ii) at all times throughout the period that begins at the later of March 21, 2013 and the time of its creation, the trust (A) is resident in Canada, (B), all the beneficiaries under the trust hold fixed interests described by reference to units of the trust, (C) follows a reasonable policy of investment diversification, (D) limits its undertaking to the

investing of its funds in property, (E) does not alone, or as a member of a group of persons, control a corporation, and (F) does not hold certain property (as detailed in the Tax Act).

Under U.S. withholding tax and reporting requirements, commonly referred to as the Foreign Account Tax Compliance Act ("FATCA"), the Trust is required to collect information from all of its Unitholders and directly or indirectly provide that information to the U.S. Internal Revenue Service (the "IRS") in order to avoid a 30% U.S. withholding tax on the receipt of certain payments of: (1) U.S. source income (such as interest, dividends and other passive income) and (2) gross proceeds from the sale or disposition of property that can produce U.S. source interest or dividends made to the Trust. To achieve the U.S. objectives of FATCA in a manner that is consistent with Canada's privacy and other laws, Canada enacted Part XVIII ("Part XVIII") of the Tax Act and signed an Intergovernmental Agreement with the

U.S. for the Enhanced Exchange of Tax Information under the Canada-U.S. Tax Convention (the "Canada-U.S. IGA") and accordingly, the Trust is generally required to conduct due diligence regarding its Unitholders and (where applicable) their beneficial owners, and to annually report to the CRA certain information regarding their U.S. Unitholders, including information regarding their name, address, and U.S. taxpayer Identification Number. The CRA has agreed to provide this information to the IRS.

In addition, Canada has signed the Organisation for Economic Co-operation and Development ("OECD") Multilateral Competent Authority Agreement and Common Reporting Standard ("CRS"). The CRS is a global model for the automatic exchange of information on certain financial accounts that is similar in many ways to FATCA. More than 95 countries, including Canada, have agreed to implement the CRS (referred to as "CRS participating countries"). Canada has enacted legislation under Part XIX ("Part XIX") of the Tax Act, which received royal assent on December 15, 2016, effective as of July 1, 2017, that will require the annual reporting of information to the CRA beginning in May 2018. In addition, the CRA will then proceed to exchange information with those CRS participating countries with which Canada has a tax exchange agreement. Generally, the CRS will require the Trust to identify the tax residency status of, and other information relating to, their Unitholders who

APPENDIX A

Risks and Uncertainties

are resident for tax purposes in any country other than Canada or the U.S.

If a Unitholder does not provide the information required to comply with these obligations under Part XVIII and/or Part XIX, as the case may be, the Unitholder's Units may be redeemed at the sole discretion of the Trust without prior notice to such Unitholder. Notwithstanding the foregoing, the Trust's due diligence and reporting obligations under FATCA and CRS will not apply with respect to the following type of accounts, namely: registered retirement savings plans, registered retirement income funds, pooled registered pension plans, registered pension plans, tax-free savings accounts, and deferred profit-sharing plans.

If the Trust fails to meet its obligations under Part XVIII and/or Part XIX, as the case may be, it may be subject to the offences and punishment of the Tax Act. The administrative costs arising from compliance with FATCA and CRS may cause an increase in the operating expenses of the Trust or other underlying fund(s) in which the Trust has invested, directly or indirectly, thereby reducing returns to Unitholders.

Investors should consult their own tax advisors regarding the possible implications of FATCA, Part XVIII, the Canada-U.S. IGA and CRS and Part XIX on their investment and the entities through which they hold their investment.

DILUTION

The Trust is authorized to issue an unlimited number of Units. The Trustees have the discretion to issue additional Units in other circumstances, pursuant to the Trust's various incentive plans. Any issuance of additional Units may have a dilutive effect on the holders of Units, whether through the Trust's incentive plans, the DRIP or to new investors. Additional Units are generally issued at the Posted Price, which may be less than the net asset value of the Units, and such issuances may have a dilutive effect on the holders of Units.

Notwithstanding the different upfront and ongoing trailer commissions with respect to each purchase option for the Class A Units, such commissions are borne by all holders of Class A Units. To the extent that the Trust is responsible for the payment of compensation to securities dealers, including upfront and ongoing trailer commissions, the funds available

to the Trust for investment purposes and distributions will be reduced. Such pooling of commissions amongst all holders of Class A Units may have a dilutive effect on certain holders of Class A Units.

NATURE OF UNITS

The Units are not traditional equity investments and are not the same as shares of a corporation. As a result, Unitholders will not have the statutory rights and remedies normally associated with share ownership, including, for example, the right to bring "oppression" or "derivative" actions. The Units are not "deposits" within the meaning of the Canada Deposit Insurance Corporation Act and are not insured under the provisions of that act or any other legislation. Each Unit represents an equal, undivided beneficial interest in the Trust.

LACK OF INDEPENDENT EXPERTS REPRESENTING UNITHOLDERS

Each of the Trust and the Asset Manager has consulted with a single legal counsel regarding the formation and terms of the Trust and the offering of Units. Unitholders have not, however, been independently represented. Therefore, to the extent that the Trust, Unitholders or this offering could benefit by further independent review, such benefit will not be available. Each prospective investor should consult his or her own legal, tax and financial advisors regarding the desirability of purchasing Units and the suitability of investing in the Trust. No outside selling agent unaffiliated with the Asset Manager or its affiliates has made any review or investigation of the terms of the offering of Units, the structure of the Trust or the background of the Asset Manager or its affiliates.

REAL ESTATE SECURITIES

The Trust may gain exposure to the real estate sector by investing in real estate-linked derivatives, real estate investment trust securities, and common, preferred, convertible, and debt securities of issuers in real estate-related industries. Each of these types of investments are subject to risks similar to those associated with direct ownership of real estate, including loss to casualty or condemnation, increases in property taxes and operating expenses, zoning law amendments, changes in interest rates, overbuilding and

APPENDIX A

Risks and Uncertainties

increased competition, variations in market value, and possible environmental liabilities.

CHANGES IN REAL PROPERTY VALUES

Some of the Trust's Investments will be secured by real property, the value of which may fluctuate. The value of single-family residential properties is affected by, among other factors, general economic conditions, local real estate markets, the attractiveness of the property and the level of supply and demand in the market for comparable properties.

A substantial decline in value of real property provided as security for a mortgage may cause the value of such real property to be less than the outstanding principal amount of the mortgage. In that case, and in the event the mortgage loan is uninsured, the Trust's realization on its security and its exercise of foreclosure or power of sale rights in respect of the relevant property might not provide the Trust with proceeds sufficient to satisfy the outstanding principal amount of, and interest owing, under the mortgage loan.

While independent appraisals are generally required before the Trust makes any mortgage investments, the appraised values provided, even where reported on an "as is" basis, are not necessarily reflective of the market value of the underlying real property, which may fluctuate. In addition, the appraised values reported in independent appraisals may be subject to certain assumptions and conditions, including the completion of construction, rehabilitation, remediation or leasehold improvements on the real property providing security for the mortgage loan. There can be no assurance that these assumptions and conditions will be satisfied and if, and to the extent they are not satisfied, the appraised value may not be achieved. Even if such assumptions and conditions are satisfied, the appraised value may not necessarily reflect the market value of the real property at the time the conditions are satisfied.

GENERAL ECONOMIC AND POLITICAL CONDITIONS

The success of the Trust's activities may be affected by general economic and market conditions, such as interest rates, availability of credit, inflation rates, economic uncertainty, changes in laws, and national and international political circumstances including wars, terrorist acts or security operations. These factors may affect the level and

volatility of securities prices and the liquidity of the Partnership's investments. Unexpected volatility or illiquidity could impair the Trust's profitability or result in losses.

FOREIGN INVESTMENT AND CURRENCY EXPOSURE

As the Trust may hold assets not denominated in Canadian dollars, the fair market value of the Trust, when measured in Canadian dollars, will, to the extent this has not been hedged against, be affected by changes in the value of the U.S. dollar relative to the Canadian dollar. The Trust may not be fully hedged or hedged at all and it is not intended that the distributions and income statements on the assets of the Trust will be hedged and accordingly no assurance can be given that the Trust will not be adversely impacted by changes in foreign exchange rates or other factors. The use of hedges, if used, involves special risks, including the possible default by the other party to the transaction, illiquidity and, to the extent the Asset Manager's assessment of certain market movements is incorrect, the risk that the use of hedges could result in losses greater than if the hedging had not been used. Hedging arrangements may have the effect of limiting or reducing the total returns to the Trust if the Asset Manager's expectations concerning future events or market conditions prove to be incorrect. In addition, the costs associated with a hedging program may outweigh the benefits of the arrangements in such circumstances.

EXCHANGE RATE FLUCTUATIONS

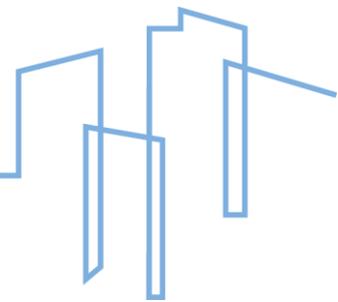

The functional currency of the Trust will be Canadian Dollars. The value of the investments made by the Trust may fluctuate as a result of the impact of economic and political changes on currency rates.

ASSET ALLOCATION RISK

The Trust's investment performance depends upon how its assets are allocated and reallocated. There is a risk that the Asset Manager may make less than optimal or poor asset allocation decisions. The Asset Manager employs an active approach to make opportunistic investments, but there is no guarantee that such investment techniques will produce the desired results. It is possible that the Asset Manager will focus on an investment that performs poorly or underperforms other investments under various market conditions.

APPENDIX A

Risks and Uncertainties

JOINT ARRANGEMENTS

The Trust may invest in, or be a participant in, joint arrangements and partnerships with third parties in respect of the Investments. A joint arrangement or partnership involves certain additional risks which could result in additional financial demands, increased liability and a reduction in the Asset Manager's control over the Investments and its ability to sell the Trust's interests in an Investment within a reasonable time frame.

INTEREST RATES

The Trust's income will consist primarily of interest and other payments on the Investments comprising the Portfolio. If there is a decline in interest rates, the Trust may find it difficult to fund Investments with yields sufficient to achieve the Trust's investment objectives. Additionally, an increase in interest rates increase may negatively affect the value of the Investments in the Portfolio.

LITIGATION RISKS

The Trust may, from time to time, become involved in legal proceedings in the course of its business. The costs of litigation and settlement can be substantial and there is no assurance that such costs will be recovered in whole or in part. During litigation involving a counterparty in respect of an Investment, the Trust may not be receiving payments on the Investment that is the subject of litigation, thereby impacting the Trust's cash flows. The unfavourable resolution of any legal proceedings could have a material adverse effect on the Trust and its financial position and results of operations.

IMPAIRED LOANS AND NO INSURANCE

The Trust may from time to time have one or more impaired loans in its Portfolio. Loans are impaired where full recovery is considered in doubt based on a current evaluation of the security held (if any) and for which specific loss provisions have been established. Any Investments that are secured by buildings and/or land will not generally be insured by a mortgage insurer in whole or in part.

NO GUARANTEES OR INSURANCE ON INVESTMENTS

A borrower's obligations to the Trust or any other person are

not guaranteed by the Government of Canada, the government of any province or any agency thereof. In the event that security is given by the borrower or a third party or that a private guarantor guarantees the borrower's obligations, there is no assurance that such additional security or guarantee will be available or sufficient to make the Trust whole if and when resort is to be had thereto.

UNITHOLDER LIABILITY

The Declaration of Trust provides that no Unitholder will be subject to any liability whatsoever to any person in connection with the holding of a Unit. In addition, legislation has been enacted in the Province of Ontario and certain other provinces and territories that is intended to provide Unitholders in those provinces and territories with limited liability. However, because of uncertainties in the law relating to investment trusts, there is a risk, which is considered by counsel to be remote in the circumstance, that a Unitholder could be held personally liable for obligations of the Trust (to the extent that claims are not satisfied by the Trust) in respect of contracts which the Trust enters into and for certain liabilities arising other than out of contracts including claims in tort, claims for taxes and possibly certain other statutory liabilities. The Trustees intend to cause the Trust's operations to be conducted in such a way as to minimize any such risk including by obtaining appropriate insurance and, where feasible, attempting to have every material written contract or commitment of the Trust contain an express disavowal of liability against Unitholders.

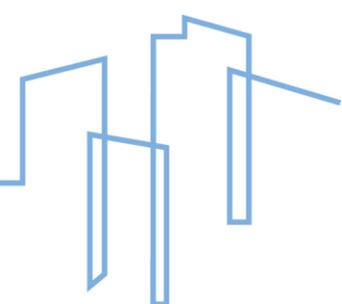

DEPENDENCE ON KEY PERSONNEL

In assessing the risk of an investment in the Units offered hereby, potential investors should be aware that they will be relying on the good faith, experience and judgment, Management, as well as the Asset Manager (and its affiliates) to manage the business and affairs of the Trust. The management of the Trust depends on the services of certain key personnel. The termination of employment of these key personnel could have a materially adverse effect on the Trust.

There is no guarantee that Management, the directors and officers of the Asset Manager (and its affiliates) or the Board of Trustees will remain unchanged. It is contemplated that Management and the Asset Manager (and its affiliates) will

APPENDIX A

Risks and Uncertainties

devote to the Trust's affairs only such time as may be reasonably necessary to conduct its business.

CYBERSECURITY

The Trust maintains confidential information regarding its borrowers, business plans, strategy and potential origination opportunities in its computer systems. The Trust also maintains an Internet website. Despite the implementation of network security measures, this infrastructure may be subject to physical break-ins, computer viruses, programming errors, attacks by third parties or similar disruptive problems. A security breach of computer systems could disrupt operations, damage reputation, result in legal or regulatory liability, and/or have a material adverse effect on the Trust.

LACK OF REGULATION

Currently, there are no regulatory capital requirements on asset-based lenders that would impede their ability to extend credit, unlike the major commercial banks that are subject to the provisions of the Bank Act (Canada) and Basel III (the Third Basel Accord). Any changes to the regulation of the asset-based lending industry could have a material adverse effect on the Trust.

LIMITED NUMBER OF INVESTMENTS

The Trust may participate in a limited number of Investments. As such, the aggregate return of the Trust may be substantially adversely affected by the unfavourable performance of any single Investment.

LACK OF OPERATING HISTORY

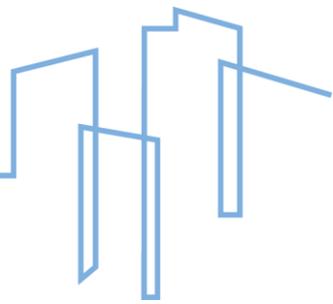

Although persons involved in the management and advising of the Trust and the service providers to the Trust, including Management and personnel of the Asset Manager (and its affiliates), have had long experience in their respective fields of specialization, the Trust has no performing history upon which prospective investors can evaluate its performance. Investors should be aware that the past performance by those involved in the investment management of the Trust, including the past performance of Centurion Apartment REIT and Centurion REOT, should not be considered as an indication of future results.

FAILURE OR UNAVAILABILITY OF COMPUTER AND DATA PROCESSING SYSTEMS AND SOFTWARE

The Asset Manager and its affiliates are dependent upon the successful and uninterrupted functioning of its computer and data processing systems and software. The failure or unavailability of these systems could interrupt operations or materially impact the Asset Manager's and its affiliates' ability to collect revenues and make payments on behalf of the Trust and to manage risks. If sustained or repeated, a system failure or loss of data could negatively and materially adversely affect the ability of the Asset Manager and its affiliates to discharge their duties to the Trust and the impact on the Trust may be material and adverse.

See accompanying notes to the condensed consolidated interim financial statements.

1. Trust Information

Centurion Financial Trust (“CFIT” or the “Trust”) is an unincorporated, open-ended private investment trust which was created pursuant to a Declaration of Trust dated January 3, 2017 (“Declaration of Trust”) and is governed by the laws of the Province of Ontario. The registered office of the Trust is located at 25 Sheppard Avenue West, Suite 1800, Toronto, Ontario, M2N 6S8.

The Trust invests in a diversified portfolio of debt investments that include but are not limited to mortgages, opportunistic real estate developments, and corporate debt.

2. Basis of Presentation

a) Statement of Compliance

These condensed consolidated interim financial statements for the three and six months ended June 30, 2019, have been in accordance with IAS 34 – Interim Financial Reporting (“IAS 34”). Accordingly, certain information and footnote disclosures normally included in annual financial statements prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”), have been omitted or condensed.

These condensed consolidated interim financial statements have been approved for issue by the Board of Trustees on August 20, 2019.

b) Basis of Measurement

These condensed consolidated interim financial statements have been prepared on a historical cost basis except for convertible debentures, warrants and investment in mortgage trust, which have been measured at fair value through profit and loss (“FVTPL”) as determined at each reporting date.

c) Principles of Consolidation

These condensed consolidated interim financial statements reflect the operations of the Trust and its wholly-owned subsidiary Centurion Financial Trust LP. The financial statements of the subsidiaries included in these condensed consolidated interim financial statements are from the date that control commences until the date that control ceases.

The accounting policies of the subsidiaries are consistent with the accounting policies of the Trust and their financial statements have been prepared for the same reporting period as the Trust. All intercompany transactions and balances have been eliminated upon consolidation.

d) Functional and Presentation Currency

These condensed consolidated interim financial statements are presented in Canadian Dollars, which is the functional currency unless otherwise stated.

e) Critical Accounting Estimates, Assumptions and Judgments

The preparation of these condensed consolidated interim financial statements requires management to make estimates, assumptions, and judgments that affect accounting policies and the reported amounts of assets, liabilities at the date of the condensed consolidated interim financial statements, and income and expenses during the reporting period. Management relies on external information and observable conditions where possible, supplemented by internal analysis. Revisions to accounting estimates are recognized in the year in which the estimate is revised and in any future years affected.

Estimates, assumptions, and judgments have been applied in a consistent manner and there are no known trends, commitments, events or uncertainties that management believes will materially affect the methodology or assumptions utilized in making those estimates and judgments. While management makes its best estimates and assumptions, actual results may vary from these and other estimates.

The significant estimates, assumptions, and judgments used in the preparation of these condensed consolidated interim financial statements are as follows:

Measurement of Expected Credit Loss (“ECL”)

The ECL model requires evaluation and recognition of an allowance for expected credit losses over the next 12 months for investments without evidence of change to credit risk and an allowance of lifetime losses on investments that have experienced a significant increase in credit risk since origination.

Management assesses financial assets for objective evidence of significant changes in credit risk at each reporting period by specifically considering, but not limited to, the following:

- Payment default by a borrower which is not cured within a reasonable period
- Whether the security of the loan is significantly negatively impacted by recent events
- Financial difficulty experienced by a borrower
- Changes in assumptions about local economic and other market conditions in the geographic area in which a borrower’s project is located
- Management’s judgment as to whether current economic and credit conditions are such that potential losses at the reporting date are likely to be higher or lower than the amounts suggested by historic experience

The calculation of expected credit losses requires significant judgment to determine the variables that are relevant for each debt investment and probability weights that should be applied.

CENTURION FINANCIAL TRUST
Notes to the Condensed Consolidated Interim Financial Statements (Unaudited)
For the three and six months ended June 30, 2019

Management exercises expert credit judgment in determining the amount of ECLs at each reporting date by considering reasonable and supportable information that is not already incorporated in the quantitative modeling process. Changes in these inputs, assumptions, models and judgments directly impact the measurement of ECLs.

Measurement of Fair Value

Fair value measurements are recognized in financial and non-financial assets and liabilities categorized using a fair value hierarchy that reflects the significance of inputs used in determining their fair values:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Quoted prices in active markets for similar assets or liabilities or valuation techniques where significant inputs are based on observable market data.
- Level 3: Valuation techniques for which any significant input is not based on observable market data.

Each type of fair value is categorized based on the lowest level input that is significant to the fair value measurement in its entirety. The information about assumptions made in the fair value is included in the following notes:

- Note 5: Investment in Mortgage Trust, Convertible Debentures and Warrants
- Note 13: Fair Value Measurement

3. Significant Accounting Policies

a) Financial Instruments

Recognition and Measurement

Financial instruments are classified as one of the following: (i) FVTPL, (ii) fair value through other comprehensive income (“FVOCI”) or (iii) amortized cost or (iv) other liabilities. The classification of financial instruments depends on the purpose for which the financial instruments were acquired or issued, their characteristics and the Trusts designation of such instruments. The Trust has no financial instruments classified as FVOCI.

Interest income from financial assets, not classified as FVTPL, is determined using the effective interest rate method.

Derecognition of Financial Assets and Liabilities

The Trust derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. On derecognition of a financial asset, the difference between the carrying amount of the asset and the sum of the consideration received (including any new asset obtained less any new liability assumed) and any cumulative gain or loss that had been recognized in other comprehensive income is recognized in profit or loss. The Trust derecognizes a financial liability when the obligation under the liability is discharged, canceled or expires.

b) Debt Investments

Debt Investments are classified and measured at amortized cost using the effective interest method, less any impairment losses. Debt Investments are assessed at each reporting date to determine whether there is objective evidence of significant changes in credit risk. A debt investment’s credit risk increases when objective evidence indicates that factors have occurred after the initial recognition of an investment and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably. The Trust’s internal credit risk rating process involves judgment and combines multiple factors to arrive at a specific score to assess each debt investment the probability of default. These factors include the loan to value ratio, borrower’s net worth and ability to service debt, project location, experience with the borrower and credit score. Significant changes in the internal credit risk rating would result in reclassifications of debt investments into Stage 2 and Stage 3.

Allowance for ECL on Investments

The Trust maintains an allowance in order to cover impairment in the existing portfolio for loans that have not yet been individually identified as impaired. Under the IFRS 9, the ECL methodology, an allowance is recorded for ECLs on financial assets according to the following stages:

Stage 1	When debt investments are recognized they are classified into Stage 1. The Trust recognizes an allowance based on 12 months ECLs, which represent lifetime ECLs related to default events that are expected to occur within 12 months after the reporting date. Stage 1 debt investments also include investments where the credit risk has subsequently improved such that the increase in credit risk since initial recognition is no longer significant and the debt investments have been reclassified from Stage 2.
Stage 2	When a debt investment has shown a significant increase in credit risk since origination, the Trust reclassifies the debt investment to Stage 2 and an allowance is recognized at an amount equal to ECL over the remaining life. Stage 2 debt investments also include investments where the credit risk has improved and the debt has been reclassified from Stage 3.
Stage 3	The Trust classifies debt investments to Stage 3 when payment defaults by the borrower are not cured within a reasonable period. In certain other cases, where qualitative thresholds indicate unlikelihood to pay as a result of a credit event, the Trust carefully considers whether the event should result in an assessment at Stage 2 or Stage 3 for ECL calculations. Allowances required for impaired loans are recorded for individually identified impaired investments to reduce their carrying value to the expected recoverable amount. The Trust reviews investments on an ongoing basis to assess whether any loans should be classified as impaired and whether an allowance or write-off should be recorded.

An impairment loss is calculated as the difference between the carrying amount of the debt investment and the present value of the estimated future cash flows discounted at the original effective interest rate. Losses are charged to the consolidated statement of net income and comprehensive income and are reflected in the provision for debt investment losses. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through the consolidated statement of net income and comprehensive income.

If there is no objective evidence of impairment for a specific debt investment, the Allowance for ECL for a particular debt investment is calculated based on management's estimated deterioration in the value of the underlying asset(s).

c) Provisions

Provisions are recognized when the Trust has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not recognized for future operating losses.

The amount of a provision is based on management's best estimate of the expenditure that is required to settle the obligation at the end of the reporting year.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a financing expense.

d) Distribution Reinvestment and Unit Purchase Plan ("DRIP")

The Trust has instituted a Dividend Reinvestment Plan ("DRIP") in accordance with Article 5.8 of the Declaration of Trust which provides that the Trustees may in their sole discretion establish a distribution reinvestment plan at any time providing for the voluntary reinvestment of distributions by some or all the Trust Unitholders as the Trustees determine. Currently, Unitholders receive a 2% discount on Units purchased through the DRIP. No commissions, service charges or brokerage fees are payable by participants in connection with the DRIP.

e) Net Assets Attributable to Unitholders

In accordance with *IAS 32 – Financial Instruments: Presentation*, puttable instruments are generally classified as financial liabilities. The Trust's units are puttable instruments, meeting the definition of financial liabilities in IAS 32. There are exception tests within IAS 32 that could result in a classification of equity; however, the Trust's units do not meet exception requirements. Therefore, the Trust has no instrument qualifying for an equity classification on its Statement of Financial Position pursuant to IFRS. The classification of all units as financial liabilities with the presentation as net assets attributable to Unitholders does not alter the underlying economic interest of the Unitholders in the net assets and net operating results attributable to Unitholders.

The Trust's units are carried on the Statement of Financial Position at net asset value. Although puttable instruments classified as financial liabilities are generally required to be remeasured to fair value at the end of each reporting year, the alternative presentation as net assets attributable to Unitholders reflects that, in total, the interests of the Unitholders are limited to the net assets of the Trust.

f) Income Taxes

The Trust qualifies as a Mutual Fund Trust for Canadian income tax purposes. In accordance with the terms of the Declaration of Trust, the Trust intends to distribute its income for income tax purposes each year to such an extent that it will not be liable for income taxes under Part I of the Income Tax Act (Canada). The Trust is eligible to claim a tax deduction for distributions paid and, intends to continue to meet the requirements under the Income Tax Act (Canada). Accordingly, no provision for income taxes payable has been made. Income tax obligations relating to distributions of the Trust are the obligations of the Unitholders.

g) Changes in Accounting Policies

Leases (“IFRS 16”)

IFRS 16 Leases is effective for reporting periods beginning on or after January 1, 2019. IFRS 16 specifies how to recognize, measure, present and disclose leases. From a lessee perspective, IFRS 16 eliminates the classification of leases as either operating leases or finance leases as required by IAS 17 and, instead, introduces a single lessee accounting model. The single lessee accounting model requires lessees to recognize assets and liabilities for all leases unless the lease term is 12 months or less or the underlying asset has a low value and to disclose the depreciation of lease assets separately from interest on lease liabilities in the income statement. A lessee shall either apply IFRS 16 with full retrospective effect or alternatively not restate comparative information but recognize the cumulative effect of initially applying IFRS 16 as an adjustment to opening equity at the date of initial application. The Trust does not expect the adoption of IFRS 16 to have a material impact on net income or on the net assets attributable to Unitholders of the Trust.

CENTURION FINANCIAL TRUST
Notes to the Condensed Consolidated Interim Financial Statements (Unaudited)
For the three and six months ended June 30, 2019

4. Debt Investments

Debt investments represent amounts under senior debt loan arrangements. As of June 30, 2019, the weighted-average effective interest rate is 13.28% (June 30, 2018: 14.00%) and the estimated weighted-average contractual term-to-maturity is 0.76 years (June 30, 2018: 1.20 years). Interest income for the three and six months ended June 30, 2019 was \$655,398 (three months ended June 30, 2018: \$815,651) and \$1,183,289 (six months ended June 30, 2018: \$1,183,534), respectively.

	THREE MONTHS ENDED JUNE 30		SIX MONTHS ENDED JUNE 30	
	2019	2018	2019	2018
Interest income on debt investments	\$ 655,398	\$ 815,651	\$ 1,183,289	\$ 1,183,534
Allowance for ECL	(493,586)	(29,304)	(494,286)	(45,795)
Net debt investment income	\$ 161,812	\$ 786,347	\$ 689,003	\$ 1,137,740

As at June 30, 2019, debt investments are as follows:

As at	June 30, 2019	December 31, 2018
Current gross debt investments	\$ 11,795,565	\$ -
Non-current gross debt investments	8,092,846	11,319,979
	19,888,410	11,319,979
Allowance for ECL	(608,857)	(114,571)
Total debt investments	\$ 19,279,554	\$ 11,205,408

The fair value of the debt investment portfolio approximates its carrying value as the majority of the loans are repayable in full at any time without significant penalty. There is no quoted price in an active market for the debt investments. The Trust makes its determinations of fair value based on its assessment of the current lending market for debt investments of same or similar terms. As a result, the fair value of debt investments is based on Level 3 of the fair value hierarchy.

CENTURION FINANCIAL TRUST
Notes to the Condensed Consolidated Interim Financial Statements (Unaudited)
For the three and six months ended June 30, 2019

As at June 30, 2019, debt investments, including the allowance for ECL is allocated between the internal credit risk stages as follows:

	Stage 1	Stage 2	Stage 3	Total
Gross debt investments, as at December 31, 2018	\$ 11,319,979	\$ -	\$ -	\$ 11,319,979

As at June 30, 2019, the Trust has additional debt investment commitments of \$nil (June 30, 2018: \$nil). Future repayments excluding allowance for debt investments loss are as follows:

Future repayments, net of allowance for ECL	June 30, 2019	December 31, 2018
Within 1 year	\$ 11,795,565	\$ -
1 to 2 years	8,092,846	11,319,979
Thereafter	-	-
Total repayments	\$ 19,888,410	\$ 11,319,979

CENTURION FINANCIAL TRUST
Notes to the Condensed Consolidated Interim Financial Statements (Unaudited)
For the three and six months ended June 30, 2019

5. Investment in Mortgage Trust, Convertible Debentures and Warrants

The Trust has financial assets consisting of an investment in a mortgage trust, convertible debentures and warrants. The investment in mortgage trust is trust units of a commonly managed trust with a focus on real estate mortgage investments and is based on recent trading prices. The convertible debentures represent the right of the Trust to convert the outstanding loan of a borrower into common stock at any time and specifically at the time of any request to repay the loan. The warrants represent purchase options of shares of common stock in an entity which the Trust also has a debt investment, with a cash put option in USD that is exercisable.

As at	June 30, 2019		December 31, 2018	
Investment in mortgage trust	\$	34,773,985	\$	32,017,472
Convertible debentures		-		1,328,000
Warrants		1,365,027		1,461,325
	\$	36,139,012	\$	34,806,797

These financial assets are remeasured at FVTPL at each reporting date as outlined in the fair value measurement (Note 13). Fair value movement related to the above investments are as follows:

	THREE MONTHS ENDED JUNE 30		SIX MONTHS ENDED JUNE 30	
	2019	2018	2019	2018
Fair value gains on investment in mortgage trust	\$ 233,377	\$ -	\$ 233,377	\$ 732,741
Fair value gains (losses) on convertible debentures and warrants	(319,580)	69,119	(36,847)	136,829

CENTURION FINANCIAL TRUST
Notes to the Condensed Consolidated Interim Financial Statements (Unaudited)

6. Accounts Payable and Accrued Liabilities

As at	June 30, 2019		December 31, 2018	
Accrued expenses	\$	215,901	\$	173,554
Accounts payable		114,219		10,779
	\$	330,120	\$	184,333

7. General and Administration

	THREE MONTHS ENDED JUNE 30		SIX MONTHS ENDED JUNE 30	
	2019	2018	2019	2018
Salaries and wages	\$ 180,360	\$ 89,245	\$ 303,955	\$ 167,672
Professional fees	18,249	72,414	36,498	88,245
Fund administration costs	28,760	40,790	62,020	66,455
Advertising	25,658	39,911	48,577	93,276
Office expenses	7,401	22,664	12,364	23,897
	\$ 260,428	\$ 265,024	\$ 463,414	\$ 439,545

8. Restricted cash/Unit subscriptions in trust

At June 30, 2019 the restricted cash is \$50,000 (December 31, 2018: \$1,300,000). Restricted cash represents Unitholder subscriptions held in trust until the trade settlement date, and these amounts will be returned to investors if the proposed Unitholder subscriptions do not successfully proceed.

9. Classification of Units

In accordance with the Declaration of Trust (“DOT”), the Trust may issue an unlimited number of units of various classes, with each unit representing an equal undivided interest in any distributions from the Trust, and in the net assets in the event of termination or wind-up of the Trust.

Authorized

a) Unlimited number of Class A Trust Units

Class A Trust Units are participating, with one vote per unit, no par value.

b) Unlimited number of Class F Trust Units

Class F Trust Units are participating, with one vote per unit, no par value.

c) Unlimited number of Class I Trust Units

Class I Trust Units are participating, with one vote per unit, no par value.

d) Unlimited number of Class M Trust Units

Class M Trust Units are participating and represent a beneficial interest set as the ratio of the number of investor units, such that the amount of Class M Units will equal the number of investor units divided by 0.95 less the number of investor units. Apart from certain voting restrictions, Class M unitholders are entitled to vote to that percentage of all Unitholder votes equal to the Class M unit percentage interest. At any time, the holder of a Class M unit may convert into either Class A and or Class R units.

e) Unlimited number of Class R Trust Units

Class R Trust Units are participating with no par value and reserved for a Centurion Family Entity as defined in the DOT. Apart from certain voting restrictions, Class R units are entitled to vote to that percentage of all Unitholder votes equal to the Class R Percentage Interest as defined in the DOT.

Each Unitholder shall be entitled to require the Trust to redeem Class A, F, I, M, or R Trust units on the “Redemption Date” of any month on demand. Unitholders whose units are redeemed will be entitled to receive a redemption price per unit (“Redemption Price”) determined by a market formula at fair value less any applicable early redemption fees as outlined in the DOT.

The redemption price will be satisfied by way of cash payment. The Trust units tendered for redemption in any calendar month in which the total amount payable by the Trust exceeds \$50,000 (the “Monthly Limit”), will be redeemed for cash by a distribution in specie of debt securities on a pro-rata basis.

CENTURION FINANCIAL TRUST

10. Commitments

The Trust has entered into an agreement with a related party, Centurion Apartment Real Estate Investment Trust (“REIT”), the warehouse lender, whereby REIT is given the opportunity to fund investments originated by the Trust. The Trust has the right during the term of the agreement to purchase the investments previously funded by the warehouse lender, subject to the provisions of the agreement. Subject to the provisions of the agreement, the Trust may also be obligated to repurchase investments funded by REIT under the warehouse agreement. The Trust has guaranteed any losses on the investments funded by REIT under the warehouse agreement. The total amount utilized in the warehouse facility as at June 30, 2019 is \$2,476,865 (December 31, 2018: \$nil).

11. Contingencies

In the ordinary course of business activities, the Trust may be contingently liable for litigation and claims arising from investments entered into. Where required, management records adequate provisions to account for such contingencies. Although it is not possible to accurately quantify the extent of any potential losses and associated costs, management believes that the Trust’s exposure to any such matters would not have a material impact on these condensed consolidated interim financial statements.

12. Related Party Transactions

As at June 30, 2019, CFIT holds 2,984,379 Class R Trust units of Centurion Real Estate Opportunities Trust (“REOT”) (December 31, 2018: 2,765,133). The distributions for the Class R Trust units were \$618,817 and \$1,164,291 for the three and six months ended June 30, 2019, settled in cash. Prior year distributions included \$429,555 and \$1,019,868 for three and six months ended June 30, 2018 settled in cash and additional \$266,015 distribution settled with 23,589 Class R Trust units for the six months ended June 30, 2018. As at June 30, 2019 a related party of the Trust holds the 50,000 Class M Trust units of the Trust. The distributions for the three and six months ended June 30, 2019 for the Class M Trust units were \$56,118 (three months ended June 30, 2018: \$37,661) and \$100,998 (six months ended June 30, 2018: \$68,798), respectively.

During the three and six months ended June 30, 2019, CFIT reimbursed Centurion Asset Management GP Inc. (“CAMGPI”) \$151,007 and \$263,279, respectively, of allocated payroll expenses (\$nil and \$1,254 for the three and six months ended June 30, 2018) and \$nil, of administrative expenses (\$nil for the three and six months ended June 30, 2018).

During the three and six months ended June 30, 2019, the Trust utilized and repaid \$6,090,094 and advanced \$2,476,865, respectively, of the warehouse facility with REIT, as disclosed in note 10.

For the three and six months ended June 30, 2019

13. Fair Value Measurement

Fair value is the price that market participants would be willing to pay for an asset or liability in an orderly transaction under current market conditions at the measurement date.

The fair values of the Trust's financial instruments were determined as follows:

- The carrying amounts of cash, restricted cash, receivables and other assets, unit subscriptions in trust, and accounts payable and accrued liabilities approximate their fair values based on the short-term maturities of these financial instruments.
- Management determines fair value based on its assessment of the current lending market for debt investments of same or similar terms since there are no quoted prices in an active market for debt investments.
- Management determines the fair value of warrants using the discounted cash flow approach.
- Management determines the fair value of investment in mortgage trust using quoted net asset valuation redemption prices available to all unit holders.

The table below analyzes assets and liabilities carried at fair value in the consolidated statement of financial position, by the levels in the fair value hierarchy, which are defined as follows:

June 30, 2019	Note	Level 1	Level 2	Level 3
Assets				
Investment in mortgage trust	5	\$ -	\$ 34,773,985	\$ -
Convertible debentures and warrants	5	-	-	1,365,027
Measured at fair value through profit and loss		\$ -	\$ 34,773,985	\$ 1,365,027

December 31, 2018	Note	Level 1	Level 2	Level 3
Assets				
Investment in mortgage trust	5	\$ -	\$ 32,017,472	\$ -
Convertible debentures and warrants	5	-	-	2,789,325
Measured at fair value through profit and loss		\$ -	\$ 32,017,472	\$ 2,789,325

14. Capital Management

The Trust defines capital as net assets attributable to Unitholders. The Trust's objectives in managing capital are to ensure adequate operating funds are available to maintain consistent and sustainable Unitholder distributions and to provide for resources needed to fund new investments.

The carrying value of the units is impacted by net income and Unitholder distributions. The Trust endeavors to make annual distributions. Amounts retained in excess of the distributions are used to fund new investments and working capital requirements.

Management monitors distributions through various ratios to ensure adequate resources are available. These include the proportion of distributions paid in cash, DRIP participation ratio, and total distributions as a percent of distributable income and distributable income per unit.

15. Financial Instruments

Risk management

The main risks that arise from the Trust's financial instruments are liquidity, interest, currency and credit risk. The Trust's approach to managing these risks is summarized below:

Management's risk management policies are typically performed as a part of the overall management of the Trust's operations. Management is aware of risks related to these objectives through direct personal involvement with employees and outside parties. In the normal course of its business, the Trust is exposed to a number of risks that can affect its operating performance. Management's close involvement in operations helps to identify risks and variations from expectations. As a part of the overall operation of the Trust, management considers the avoidance of undue concentrations of risk.

These risks include, and the actions taken to manage them, are as follows:

a) Liquidity risk

Liquidity risk is the risk that the Trust may not be able to meet its financial obligations as they fall due.

The Trust's principal liquidity needs arise from working capital, repayment of obligations, planned funding of debt investments and distributions to Unitholders. The Trust manages its liquidity risk by ensuring its projected financial obligations can be met through its cash flow from operations, new capital issuances and projected repayments under the existing debt investment portfolio.

b) Interest rate risk

The Trust's objective of managing interest rate risk is to minimize the volatility of earnings. Management monitors the Trust's current lending rates on an ongoing basis and assesses the impact of any changes in these credit rates on earnings. As at June 30, 2019, the Trust had debt investments of \$13,141,804 (December 31, 2018: \$6,328,000) that bore interest at variable rates.

c) Credit risk

Credit risk is the possibility that a borrower under one of the debt investments, may be unable to honor their debt commitment as a result of a negative change in the borrower's financial condition or market conditions that could result in a loss to the Trust.

The Trust monitors its collection experience on a monthly basis ensuring any payment default is cured within a reasonable period and all past due amounts which are doubtful of being collected are provided for.

d) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial asset will fluctuate due to changes in foreign exchange rates. The Trust is exposed to currency risk from warrants that are denominated in US dollar ("USD"). As at June 30, 2019, the Trust has warrants of \$795,038 USD (December 31, 2018: \$1,071,195 USD).

16. Subsequent Events

Subsequent to the reporting date the Trust completed the following transactions:

- a) The Trust made cash distributions of \$0.3 million to investors.
- b) The warehouse facility balance was decreased by \$2.0 million.
